**SIDE EVENT:**

On the same day, the collateral promotional event called **“JUST JUMP”** is scheduled:

**“Just Jump”** is a format that, equipped with a specific Kit, allows you to “try out” pole vaulting, it consists of a progression of exercises that, with the help of three specialists, allows everyone to try pole vaulting in mini mode but with the same principles. The area dedicated to **“Just Jump”** will be in the green area of the square, adjacent to the champions’ jumping area and the speaker will remind the audience several times that any child or adult who tries to make a first jump will receive the event t-shirt that they can then have the champions of the international competition sign.

The Kit is made up of two stands for the bar, a stackable hole, 3 or 4 preparatory poles and other small extra tools, to give the children and adults present the opportunity to emulate the feats of the champions of the event.

“Just Jump” has already been successfully proposed in the past in front of the Cappella degli Scrovegni Padova, at Villa Manin di Passariano and in other locations alongside competitive races.

In conclusion, thanks to this format the spectators will not only be spectators but will also be able to be actors of this fascinating specialty of Athletics that is the pole vault.
